

**HDS-LEE Seminars**

**Laura Helleckes and Michael Osthege**

IBG-1, Forschungszentrum Jülich

**Productionizing Bayesian Nowcasting Workflows with  
Apache Airflow**

- Niceties of Apache Airflow as a workflow orchestration engine
- Airflow in production using Docker
- Dealing with package dependencies
- Data management
- Special considerations for MCMC workflows

For more information on the application of Apache Airflow, please have a look here: <https://www.fz-juelich.de/SharedDocs/Pressemitteilungen/UK/DE/2020/2020-08-10-corona-website.html>

**Date: Wednesday December 2, 2020**

Time: 11:00 - 12:00

Place: Videoconference
